Jesse Myers

I build software systems, architectures, and teams that work well together to create great products. I believe that a great architecture serves the needs of people and helps them fulful the values of their team; I believe that an architect must blend hands-on development – in order to know these needs – servant leaderships, and deep technical expertise.
I am looking for an opportunity to exercise these talents in value-driven setting.

Professional Experience

Feb 2016 - Mar 2019

Globality - Chief Architect

Lorem ipsum...

01. One

02. Two

03. Three

August 2001 - Jan 2016

Location Labs - Chief Scientist

Lorem ipsum...

01. One

02. Two

Education

August 1997 - May 2001

Brown University - ScB Mathematics & Computer Science

Graduated Summe Cum Laude with Phi Beta Kappa honors.

FLUENT WITH

— *Python*

— *PostgreSQL*

— *REST*

— *AWS*

— *Terraform*

— *Ansible*

FAMILIAR WITH

— *Node.js*

— *GraphQL*

— *Elasticsearch*

— *Neo4J*

INTERESTED IN

— *Microservices*

— *Event-sourcing*

— *Distributed Systems*

— *TLA+*

Open Source

— `microcosm`

— `nodule`
